Eyosiyas Tumiso
Full-Stack || MERN Engineer

96-667-7927 | eyosiyastumiso7@gmail.com | LinkedIn | Portfolio | Github

SUMMARY

A passionate Junior Full Stack MERN Engineer with expertise in delivering scalable, high-performance web applications. Known for enthusiasm in problem-solving, rapid adaptation to emerging technologies, and a commitment to staying ahead in the fast-evolving tech landscape. Strong in time management, with proven experience collaborating across teams and excelling in communication. Dedicated to continuous learning and driving innovation in full-stack development.

SKILLS

Front-End Development: HTML, CSS, Bootstrap, jQuery, React (state, router, API, effect, etc.)

Back-End Development: Node, Express, MySQL

Other Skills: Git, Github, Front-End & Back-End Development, SQL

PROJECTS

Evangadi Forum | Live App | Github

- A collaborative platform designed for coding students to ask questions, share knowledge, and engage in discussions, fostering a supportive learning environment for aspiring developers.

Amazon Clone | Live App | Github

- A basic e-commerce website replicating Amazon's core functions, allowing users to browse products, add items to a shopping cart, and complete secure transactions.

- It offers a simplified user interface and may include limited additional features like product reviews.

Netflix Clone | Live App | Gihub

- A streaming service replica offering a user-friendly interface for browsing movies and a custom-built media player for seamless video playback.
- Additional features may include personalized recommendations, watch lists, and offline viewing capabilities.

EXPERIENCE

- Collaborate with other developers to design, develop, and maintain full-stack applications using the MERN stack (Express, React, Node.js).
- Assist in the implementation of new features and enhancements based on user feedback and business requirements.
- Write clean, maintainable code, and perform code reviews to ensure adherence to best practices.

EDUCATION

Software Engineering Immersive | Evangadi Tech

- Completed an intensive boot camp focusing on full-stack development with hands-on projects in JavaScript, React, Node.js, and various back-end technologies.
